

Physiotherapist Roles at MD Support Centre

What we are looking for

MD Support Centre is on a mission to transform access to physical therapies for people with muscular dystrophy (MD) in the Midlands – and we are looking for physiotherapists to join our team as we expand our provision of specialised neuromuscular physiotherapy services across the Midlands.

We offer a unique opportunity to join a friendly, supportive and open-minded physiotherapy team – with an in-depth and hands-on approach to treatment and assessments.

Whether you are a self-employed physio looking for a new challenge/ extra hours, or an employee seeking a new permanent, flexible role, we would love to hear from you.

We are looking for candidates with experience and an interest in neuromuscular physiotherapy, but extensive prior experience of MD conditions is not required – full induction including shadowing / on-the-job training will be provided to support any successful candidates.

How to apply

If you'd like to apply for this role, please send a CV and covering letter detailing how your experience fits the Job Description and Person Specification to HR@mdsupportcentre.org.

For an informal discussion about the roles available, please contact Sarah Ann Moore, Chief Executive.

Other information

We positively welcome applications from all sections of the community and actively promote equal opportunities. Please note that any appointment with us is subject to full references and a DBS check which will be carried out prior to joining.
